ABOUT ME

I am a motivated and detail-oriented aspiring Web Developer with a strong foundation in front-end and back-end development. I enjoy creating clean, responsive, and user-friendly websites using modern web technologies. With a solid understanding of HTML, CSS, JavaScript, and backend fundamentals, I am committed to building efficient and functional web solutions. I continuously strive to improve my skills, learn new tools, and stay updated with current trends in web development. I am eager to contribute to meaningful projects and grow as a professional in the web development field.

EDUCATION

2028

Bachelor of Science in
Information Technology

Graduated Mariano Marcos state university

I am a proud graduate of Mariano Marcos State University, where I completed my Bachelor of Science in Information Technology. Throughout my college years, I gained strong knowledge in programming, software development, computer systems, and web technologies. My experience in various projects helped me develop solid problem-solving, analytical, and technical skills.

2024

Banban National High
School

Graduated Senior High School

I am a proud Senior High School graduate from Banban National High School, where I completed the General Academic Strand (GAS). During my time in school, I developed strong communication, critical thinking, and problem-solving skills. I am eager to apply what I've learned to real-life experiences and continue growing personally and professionally. I am open to new opportunities that will help me learn more and prepare for my future goals.
